

JABEZ ANANIAS PAUL

Mail: jbzanspal@gmail.com

Contact No: (+91) 953-251-314

Tamil Nadu, India

Portfolio website: [\[WORKING\]](#)

GitHub: github.com/dihtoyourcrack

SKILLS

Programming: Java, Python, C.

Softwares & Frameworks: React, Nextjs, Nodejs, Microsoft Excel.

Languages: Fluent – English, Conversable – Hindi, Telugu, Kannada and Malayalam Native – Tamil

PROJECTS

Cryptographically Verified Proofs

Chennai, India

- Designed a platform to verify digital and real-world achievements using cryptography.
- Implemented tamper-proof and privacy-preserving proof verification.
- Enabled instant verification for education, fitness, events, and professional records.
- Tech Stack:** JavaScript, Cryptography, Web Technologies, Security Concepts

Space-Shooter Game

- Developed a simple space-shooter game using Java, JavaFX in order to explore the GUI and libraries available in JAVA **TechStack**: Java, JavaFX and other Java libraries.

JabariRao, Chennai, India | jabarirao.vercel.app

Chennai, India

- Developed a **real-time web-based chat application**
- Implemented **end-to-end encryption** to ensure secure messaging.
- Built **user authentication and access control** features.
- Tech Stack:** HTML, CSS, JavaScript, React, Node.js, WebSockets, Encryption, Vercel

SussyBaka — ScamShield v2.0 (Frontend Security Application)

Chennai, India

- Developed a fully accessible scam detection web app with responsive design and WCAG 2.1 AA compliance (accessibility score improved from 65 → 95).
- Implemented key features including Dark Mode, Analysis History with filtering, character limit validation, reusable tooltips, and smooth animations.
- Built reusable components and custom React hooks for theme management, state handling, and local storage persistence.
- Tech Stack:** React (Vite), TypeScript, CSS3, LocalStorage API, Accessibility Standards (WCAG 2.1 AA).

ACHIEVEMENTS

Proof Of Concept 2025, DevPost - <https://skillexify--s3lcsokfr.expo.app/>

Online, India

Participation

October 2025

- Built a mobile-first platform to verify developers' technical skills using real coding activity.
- Implemented secure, privacy-focused skill verification using blockchain-based credentials.
- Enabled recruiters to quickly assess candidate skills through leaderboards, gamification, and reputation scores.
- Tech Stack (Skillexify):** React Native, Expo, Node.js, zkTLS, Blockchain (NFTs), Smart Contracts, REST APIs

CTRLALTHACK Ideathon 2024

LICET, Chennai

Selected in the top 15

November 2024

- Developed a mobile safety application for solo travelers, focusing on women, elderly individuals, and students.
- Implemented emergency alert features including real-time location sharing and automated distress detection.
- Integrated notification systems to alert contacts and authorities using cloud messaging and map services.
- Tech Stack (Safety App):** React Native / Android, Firebase, FCM, Google Maps API, GPS

Pragyan 2024, NIT Trichy

Trichy, India

Participation

February, 2024

- Competed in a large-scale coding competition with 300+ participants.
- Developed algorithmic strategies to control an army and attack opponents' bases in a competitive programming

environment.

- **Tech Stack (Coding Competition):** Java / Python, Algorithms, Data Structures

Cross-Chain Freelance Escrow Platform

Online, India

Participation

Jan-Feb 2026

- Built a decentralized escrow platform for freelance payments with milestone-based installments, IPFS messaging, and EIP-712 signature-based gasless release authorization.
- Integrated cross-chain fund transfers using LI.FI, supporting Base, Ethereum, Polygon, Arbitrum, and Optimism networks.
- Developed and deployed secure Solidity smart contracts (OpenZeppelin, Hardhat) with reentrancy protection and safe token transfers on Base Sepolia.
- **Tech Stack:** Solidity, Hardhat, OpenZeppelin, Next.js 14, TypeScript, Wagmi, Viem, RainbowKit, TailwindCSS, IPFS (Pinata), LI.FI.

EDUCATION

Loyola-ICAM College Of Engineering and Technology (LICET)

Chennai, India

- Candidate for a Bachelor of Engineering degree in Computer Science and Engineering September 2023 - Present
- Relevant Coursework: Java, Data Structures, Algorithms, Mathematics, Quantum Computing

INTERESTS AND ACTIVITIES

❖ Football ❖ Gaming ❖ Tutoring ❖ Star-Gazing
